

THINK GLOBAL, ACT LOCAL

A Green Edinburgh for Everyone

**Edinburgh Greens
Election Manifesto 2022**

Green Councillors have made things better in Edinburgh by:

- setting climate change targets
- making 20 mile an hour speed limits
- planting a million trees, and more!

We want to elect more Councillors in May 2022.

- To help us make Edinburgh more equal and accessible
- To make sure people can afford the things they need
- And to stop climate change.

Green priorities for Edinburgh

1. We want to end climate change and make sure that the council takes action to do this.

2. We want people's lives to get better in Edinburgh. We will support communities to be stronger and happier.

3. We will help people in Edinburgh get involved in making decisions about planning.

Our streets and buildings should be good for people and the planet.

4. We want to make sure our transport is better for the climate, makes us healthier, and is safe for everyone to use.

5. We want everyone to have a warm, affordable home which meets their needs.

We will make sure that people who rent their home are treated well and given more rights.

6. We want to help Edinburgh recover from Covid-19 and we want to help our economy with green jobs and work.

7. We want Edinburgh to be a city where children can play and travel safely.

People should have a say in how schools are run, and education should be cheaper.

8. We will look after people's mental and physical health.

We will make sure that care staff are properly paid and that people have a say in how care services work.

9. We will make our cultural, leisure and sports facilities accessible to everyone.

10. We will support policies that give power to groups who are discriminated against, like refugees and disabled people.

11. We will make sure that everyone in Edinburgh can easily walk or wheel to green space.

12. We will make sure that people have a say over what happens to them and their neighbourhoods.
